MGEU Specialists

With eight MGEU offices throughout the province, our experienced Staff Representatives are experts at both negotiating and enforcing contracts. But the MGEU goes one step further by offering specialized services other unions cannot match.

Here are just a few of the services our professionals provide:

Specializing in Safety and Health

Blaine, our Safety and Health Specialist, is a top expert in the field, as well as an experienced trainer who supports members to stand up for safety and health in their workplace.

Blaine - Safety & Health Specialist

A WCB expert in your corner

If the worst happens and you're injured on the job, our WCB Specialists are here to advocate on your behalf. In fact, we're the only Manitoba union with dedicated Workers Compensation Specialists.

Specialist*

Our Pension and Benefits specialist is ready to listen, explain and help

Have a question about your retirement plan? Need a hand with your LTD application or appeal? Wondering what your options are for parental leave? Ask Samantha, our dedicated Pension and Benefits Specialist, who's ready to discuss your situation and explore your options.

Samantha - Pension & Benefits Specialist

MGEU's in-house legal counsel: ready to go the distance

Helen (left) - MGEU Legal Counsel

When the employer isn't following the contract, it's time for MGEU's lawyers to step in.

We're one of the few Manitoba unions with experienced on-staff lawyers who challenge employers and win cases for members.

Each case goes forward based on merit, never on your Local's size or ability to pay the bill.

Member Education: Giving you the tools you need to succeed

We offer a wide-range of union educational courses, from conflict resolution and public speaking to bargaining and steward training.

Eager to keep learning? Every year we award over \$24,000 in post-secondary bursaries and scholarships to members and their families.
